THE 'FAMOUS' EDWARD VII 1d TRIALS PRINTED IN GERMANY IN 1913

The Full story overleaf of this exciting discovery!
A great opportunity to add something rather special to your collection at an affordable price!

THEIR HISTORY IS AS FOLLOWS:

They were produced almost 100 years ago in 1913! and then re-discovered 7 years ago in an auction in Germany. These British King Edward VII trial 1d stamps were printed in deep blue, imperforated and on gummed paper in small sheets of 25 with wide margins.

Bruckman of Munich, the German printers wanted to tender for the contracts to produce British stamps on their new Heidelberg machines.

They used Edward VII stamps during the reign of King George V to protect the Post Office revenue so they would not be used for postage – and additionally these 'sample stamps' were produced slightly oversize also to detract from possible usage.

Following on from our original acquisition and announcement, we have now secured a second and final printing of these Edward VII 1d Trials **PRINTED ON UNWATERMARKED PAPER INSTEAD OF THE BAVARIAN 19th CENTURY 'ZIG ZAG' WATERMARK.**

Apparently before the printers were to send samples and submit the tender to the British Post Office, the quality controller preferred to print some on the unwatermarked paper which would give a clearer print impression.

This made a lot of sense at the time, however with the outbreak of World War One, no tenders were made and the stamps were archived. The cheapest Edward VII trial stamps listed by Stanley Gibbons start at £1500 each! And generally realise full catalogue or over.
